 - To be fully vaccinated in Germany, those who received Pfizer or Moderna vaccines need two shots. The second dose must have been received more than 14 days before travel.
 - Those who have Johnson & Johnson need to have a second dose.
- Germany is reporting that they will relax their rules on June 1 to August 31. We anticipate they will remove all entry requirements; however, we are waiting for the official update on their website!
- Mask rules are controlled by the state/region you are in Germany.
 - Right now, FFP2 or KN95 masks are required on public transportation.
 - Medical masks are required for indoor locations.
 - Mask rules can change at any time in Germany, so we will follow those updates closely to determine what is needed for the play.

United States Entry Rules

- The United States requires a PCR or antigen Covid test to enter back into the country.
- The test must be taken within 1 day of your return home.
- We will help arrange appointments for everyone in the group.

Health Information

- In summary, we need your vaccine cards to determine where you fall in the various rules by country.
- We also need your passport to book any covid tests in addition to needing it for ticketing.
- Please urgently get it to us by texting or emailing us

- Travelers are responsible for ensuring they meet the travel entry requirements, including proof of booster to enter and circulate within each individual country visited during the river cruise. Some countries within the European Union restrict access to restaurants, trains, and tourism sites unless you can provide proof of being fully vaccinated based on their definition.

The following vaccination requirement currently applies to multi-country cruises:

- For Upper Danube Cruises (between Hungary and Germany): guests are required to be fully vaccinated with an EMA* approved vaccine. (Based on current requirements of Germany)

Pre-Cruise

Online Check-in

AmaWaterways' online Cruise Check-In process is intended for the convenience of our valued guests. We require that each step of your Cruise Check-In is completed to board our ships.

To complete, visit our website at www.amawaterways.com/welcome-check-in.

Online Check-in

In addition to providing the mandatory information required for embarkation, the Cruise Check-In process:

- Ensures your personal information, as it appears on your passport, is correct
 - Includes your required pre-cruise Health & Contact Tracing Questionnaire
 - Allows you to upload your required proof of vaccination
 - Provides us with an emergency contact in the unlikely event of an emergency
- Allows you to pre-register for all your shore excursions

What to Wear

Dress is Smart Casual with something a little dressier to wear to the Captain's Dinner or an evening concert. Remember to bring comfortable walking shoes for shore excursions.

You may be traveling through different climates and altitudes, so layering is advisable. Europe can be quite warm in the summer, so short sleeve shirts; shorts, skirts, sundresses and a wide-brimmed hat are good items to pack. Bring a raincoat and warm sweater for chilly evenings, especially in the spring and fall.

Important Packing Tips:

- Pack a sufficient supply of any medications you are taking, copies of the prescriptions and the telephone/fax numbers of your doctor. Some countries require prescription drugs be carried in their original container with the label clearly visible.
- Europe uses 220v and 2-pin adapters. Be sure to inspect your chargers and power cords (for cell phones, cameras, electric shavers, laptops, MP3 players, e-readers, etc.) to determine specific converter and/or adapter requirements to ensure their safe operation aboard the ship. Every stateroom has a USB charger should you need to use it.
